

Tutorial notebook: practical part prerequisites

Run locally (Cuda GPU expected)

```
git clone https://github.com/catboost/tutorials.git &&  
cd events/2021_06_09_odsc_west
```

Or download by direct link: <https://clck.ru/VGTjD>

Install the libraries and enable visualization in jupyter notebooks:

- › `pip install catboost shap ipywidgets sklearn`
- › `jupyter nbextension enable --py widgetsnbextension`

Run online in collaboratory

https://colab.research.google.com/github/catboost/tutorials/blob/master/events/2021_06_09_odsc_europe/odsc_europe_2021.ipynb
